**USB:** 1x USB 2.0 port or newer

**Operating system:** Windows™ 7 SP1, Windows™ 8.1 or later or Windows™ 10

**2. HTC VIVE SET:**

## Installation floor plan:

### Tips for setting up the base stations

You may set up the base stations in a way that's suitable for your place. For best results, you may follow these recommendations:

- Mount the base stations diagonally and above head height, ideally more than 2 m (ft 6 in).
- Secure the base stations in a location where they can't be easily jostled or moved.
- Each base station has a 120-degree field of view, so it's ideal to adjust its angle between 30 and 45 degrees to fully cover your play area.
- For optimal tracking, make sure that the maximum distance between the two base stations is 5 m (16 ft 4 in).
